

Mint Asset Management Funds

Mint Diversified Growth Fund

Fund Update for the quarter ended
30 September 2019

This Fund Update was first made publicly available on 30 October 2019

What is the purpose of this update?

This document tells you how the Mint Diversified Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Mint Asset Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund invests across a range of asset types which includes cash, fixed interest, property, and equities. The objective of the Fund is to deliver returns in excess of the Consumers Price Index (CPI) by 4.5% per annum, before fees, over the medium to longterm. The relevant market index for the Fund is a composite index derived from the underlying asset classes of the Fund.

Total value of the fund	\$6,162,575
The date the fund started	10 December 2018

What are the risks of investing?

To determine the risk indicator, actual returns and returns from a composite index were used as this Fund has not been in operation for the required 5 years (inception 10 December 2018). As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the Fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not Applicable
Annual return (after deductions for charges but before tax)	Not Applicable
Market index annual return (reflects no deduction for charges and tax)	5.92%

The market index return is a composite index comprised of S&P/NZX Bank Bills 90 Day Index (5%); S&P/NZX Investment Grade Corporate Bond Total Return Index (15%); S&P/NZX 50 Gross Index (15%); S&P/NZX All Real Estate (Industry Group) Gross Index (5%); S&P Global BMI (NZD Hedged) Net Total Return (60%), being the fund's relevant benchmark since inception and as stated in the Statement of Investment Policy and Objectives (SIPO).

Additional information about the market index is available in the Benchmark Indices document on the offer register at <http://www.business.govt.nz/disclose>.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years' performance history ending 30 September 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Risk indicator for the Mint Diversified Growth Fund:

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

Annual Return Graph

This shows the average annual return since the fund started, up to 30 September 2019.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Mint Diversified Growth Fund are charged fund charges.

	% of net asset value
Total fund charges*	1.37%
Which are made up of -	
Total management and administration charges	
including-	
Manager's basic fee	1.09%
Other management and administration charges	0.28%
Total performance-based fees	0.00%
Other charges	\$ amount per investor
Other charges	\$0

*Fund charges are inclusive of GST

The total fund charges are estimated on the basis of reasonable assumptions about the ongoing level of fees and costs expected to be charged per annum. See the PDS for more information about the basis on which performance fees are charged.

Small differences in fees and charges can have a big impact on your investment over the long term.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawal from or switching funds), although these are not currently charged. See the PDS for more information about those fees.

Example of how this applies to an investor

Annie had \$10,000 in the fund at the start of the fund (10 December 2018) and did not make any further contributions. At the end of September 2019, Annie received a return after fund charges were deducted of \$1,060 (that is 10.6% of her initial \$10,000). Annie did not pay any other charges. This gives Annie a total return after tax of \$1,133 for the year.
